

Rex-Royal S300

Rex-Royal S300 CT

The Rex-Royal S300 CT combines the most modern technology with easy operation in a compact design. The professional coffee machines with a variety of coffee preparations and a hot water output of up to 25 litres per hour. Thanks to the double dispenser you can prepare two espressos/coffees at the same time.

Features

Coffee

Hot Water

Advantages

- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- „Double-Shot“ function for that „Extra-Shot“ espresso.
- „PerfectBrew“ for an optimal extraction of coffee for individual as well as double dispensing.
- High-resolution capacitive, 7“ colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.

Rex-Royal S300

Rex-Royal S300 CTI

It offers an even larger variety of flavours. Be it sweet dreams of chocolate or the scent of vanilla: The milling and brewing of the coffee as well as the newest technology in milk- and chocolate-powder preparation will make sure you get delicious instant beverages at the touch of a button.

Features

Coffee

Hot Water

Instant Products

Advantages

- Two large instant powder hoppers expand your hot beverage menu to include delicious chocolate or, for example, a vanilloccino.
- Due to the convenient cleaning of the instant version and the large capacity of the two instant powder hoppers, the S300 with instant is also especially suited to the office.
- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- „Double-Shot“ function for that „Extra-Shot“ espresso.
- „PerfectBrew“ for an optimal extraction of coffee for individual as well as double dispensing.
- High-resolution capacitive, 7“ colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.

Rex-Royal S300

Rex-Royal S300 MCT

With the intelligent Rex-Royal milk system, on all „M“ version machines you can purchase your coffee and milk beverages simultaneously and from one beverage outlet. The Rex-Royal S300 MCT is therefore particularly well suited for self-service. The advanced Rex-Royal milk system guarantees delicate foam of the highest standard. The beverage outlet can be easily opened and cleaned. You can choose from a wide range of fridges as add-on units.

Features

Fresh Milk

Coffee

Hot Water

Advantages

- Warm milk beverages double-dispensed at the touch of a button with the self-priming M-version and FineFoam froth setting.
- An optional integrated milk-pumping system for individual adjustment of the milk temperature; option for dispensing of cold milk foam also an under-the-counter solution.
- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- High-resolution capacitive, 7“ colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.
- Standard Milk Control Sensor for R,Rd/UBR,UBRd

Rex-Royal S300

Rex-Royal S300 MCT-CF

By using the S300 MCT-CF with the Rex-Royal CompactFoam milk system you can make perfect hot or cold frothy milk in the required consistency. The S300 MCT-CF is the key to an unlimited range of drinks. As is the case with all „M“ models, with the CompactFoam (CF) range you can also serve all of the drinks that mix coffee and milk – from a perfect Latte Macchiato to a classic Espresso and lots more. The Rex-Royal S300 MCT-CF is especially suitable for self-service operations. An extensive range of refrigerators is available for your selection.

Features

Fresh Milk

Coffee

Hot Water

CompactFoam

Advantages

- Hot and cold frothy milk in your preferred consistency at the touch of a button.
- An unlimited selection of beverages from coffee and milk mixture drinks to hot and cold milk.
- Get two drinks at a time at the push of a button.
- Large number of different compressor refrigerators, including under-counter models.
- Integrated as standard is a high-resolution, capacitive, colour, 7" touchscreen on which up to 24 drinks symbols can be set up.
- Two different user interfaces for service and self-service.
- The tried and tested metal brewing assembly with its sophisticated design holds up to 23 grammes of ground coffee and satisfies the highest requirements in terms of coffee quality.
- Easy to operate and take care of, thanks to on-screen user instructions and automated cleaning.
- Milk Control Sensor for R,Rd/UBR,UBRd (standard)
